## MAIN ACHIEVEMENTS

### MANAGER, INFORMATION SECURITY AND BUSINESS CONTINUITY | StatePlus (formerly State Super Financial Services)

Sydney (Australia), 2015 – Present

- **Information Security:** design and implementation of a AUD 1.2 million program to increase information security. Program was achieved on time (1 year), with a 5% cost saving on budget.
- **Future Operating Model (FOM):** definition of security requirements and full review of implementation, including white box penetration testing, of the StatePlus FOM program. The project covers all aspect of the company activities, from a secure website for customer transactions to advisory services, registry and secure payments
- **Business Continuity and Disaster Recovery Plan:** definition of a business continuity and disaster recovery program. Business Impact Analysis, capabilities analysis, definition of scenarios, remediation and tests, improved awareness, better KPI

### HEAD OF GPI | BNP Paribas CIB

Sydney (Australia), 2011 - 2015

- **Permanent Control and Operational Risk:** definition and full implementation of operational and business risk assessments and control plans. Creation of an operational 2<sup>nd</sup> level control team.
- **Projects Management:** multiple implementation of back-end, front-end and transversal solutions, including local and 3<sup>rd</sup> party solutions, STP and semi-STP. Implementation of a standard project management methodology within the department in order to facilitate follow-up, communication with other teams and improve quality.
- **Business Continuity:** definition and full implementation of a 1½ year quality improvement plan (increased number of scenario and test, improve awareness, better KPIs).
- **Outsourcing:** successful implementation of multiple outsourcings, including system access jurisdiction and controls.

### GPI PROJECT MANAGER | BNP Paribas CIB

Sydney (Australia), 2009 – 2011

- **Projects Management:** multiple implementation of back-end, front-end solutions and transversal solutions, STP and semi-STP.
- **Governance:** definition of governance strategies, including Basel 2 implementation.

### TRADE FINANCE PROJECT MANAGER | Société Générale CIB

Paris (France), 2007 - 2008

- **Project management:** project redefinition and coordination for the new global back-end system for trade finance (alltra), in order to recover from multiple delays and low quality deliveries. Facilitator to improve communication between functional and IT teams.
- **Process improvement:** definition and implementation of process improvement and cost reduction projects, including productivity gain of 10% in Trade Finance Back-Office.
